## PROJECTS

Real Estate Management Project Web Development I have developed this project's Real Estate Management System in Java, JSP, and MySQL. In this project after login customers can search properties according to their choice. https://github.com/ShubhamChaurasia22/Real-Estate-Project	Tic-Tac-Toe React Project I have developed this project Tic Tac Toe game in React JS. In this the project only a two-player mode is available. https://github.com/ShubhamChaurasia22/Tic-Tac-Toe
Pokemon React Project I have developed this project Poke-Desk using React JS. In this project, I am using pokemon API. We can check all the information about any pokemon. https://github.com/ShubhamChaurasia22/Pokemon	Marvel Studio Clone (December 06, 2021 - December 30, 2021) Web Development I have developed the marvel studio website. It's a static website. I used HTML, CSS, and JavaScript. This website has all information about characters and movies. https://github.com/ShubhamChaurasia22/marvel.github.io

Portfolio Web Development I have developed my portfolio project using HTML, CSS, and JavaScript. This project contains dark mode and it is completely responsive. https://shubhamchaurasia22.github.io/Portfolio/
